15<sup>th</sup> April

Dear Peter and Martin

**RECOVERY trial DMC Chairman's report**

The DMC reviewed the data that were available by the 14<sup>th</sup> April on the 4136 patients randomised. We had no concerns and recommend the study continue as planned.

We commend the trial team and research sites for the excellent progress to date with this very important trial. I will undertake a Chairman's review of the data in one week's time and the full Committee will next review the data on 29<sup>th</sup> April

Yours sincerely
