Dear Peter and Martin

**RECOVERY trial DMC report**

The RECOVERY trial DMC reviewed the safety and efficacy data that were available today for the 14,113 patients randomised. In the light of these data and the available external information, we see no cogent reason to modify the protocol or intake to the study. I will undertake a Chairman's review of safety on 5<sup>th</sup> November. We recommend continuing recruitment to the trial until the next scheduled full DMC meeting on 19<sup>th</sup> November 2020.

Yours sincerely

Professor Peter Sandercock, MA, DM, FRCPE, FESO, FWSO  
Emeritus Professor of Medical Neurology, Centre for Clinical Brain Sciences
