Dear Peter and Martin

RECOVERY trial DMC report

The RECOVERY trial DMC reviewed the safety and efficacy data that were available today for the 11719 patients randomised. In the light of these data and the available external information, we recommend the investigators review the unblinded data for the Lopinavir-Ritonavir arm.

We recommend continuing recruitment in the other arms of the trial without interruption until the next scheduled DMC meeting on 9th July 2020.

Yours sincerely

Professor Peter Sandercock, MA, DM, FRCPE, FESO, FWSO
Emeritus Professor of Medical Neurology, Centre for Clinical Brain Sciences
Chairman RECOVERY trial DMC
