Dear Peter and Martin

**RECOVERY trial DMC Chairman's review**

I reviewed the safety and efficacy data that were available today for the 12,229 patients randomised by the 24<sup>th</sup> August. In the light of these data and the available external information, I see no cogent reason to modify the protocol or intake to the study. I recommend continuing recruitment to the trial until the next scheduled DMC meeting on 24<sup>th</sup> September 2020.

Yours sincerely

Professor Peter Sandercock, MA, DM, FRCPE, FESO, FWSO  
Emeritus Professor of Medical Neurology, Centre for Clinical Brain Sciences
