

Cambridge East REC

E-submission  
31 July 2025

Dear Dr Lamont

<b>Trial:</b>	<b>Randomised evaluation of Covid-19 therapy (RECOVERY)</b>
<b>EudraCT:</b>	<b>2020-001113-21</b>
<b>IRAS number:</b>	<b>281712</b>
<b>REC ref:</b>	<b>20/EE/0101</b>
<b>Amendment:</b>	<b>Substantial Amendment 37 (30-Jun-2025)</b>

Please find enclosed an application for authorisation of substantial amendment 37 for the above trial. This is to remove two COVID-19 comparisons that have closed, and to make several other less significant changes as described in the Amendment Tool.

We have not previously provided the REC with a list of trial sites, as this was not required in the context of the COVID-19 pandemic, but with the closing of the remaining COVID-19 comparisons we have provided a list of the 67 current UK sites and PIs below.

Included with this submission are:

- 1a-b Cover letter (word and pdf)
- 2a-b Protocol V28.0 (tracked and clean)
- 3a-b Adult ICF-PIS V27.0 (tracked and clean)
- 4a-b Child ICF-PIS V16.0 (tracked and clean)
- 5. Baloxavir marboxil SmPC V2
- 6. Amendment Tool
- 7. Sponsor approval

I believe this all the necessary documentation required for this submission and look forward to hearing the outcome. Thank you very much for your assessment.

Yours sincerely,

Sir Peter Horby
