

SUSAR Line Listing (Blinded)

Report Criteria :

Initial/FU Receipt Date Period :	Dec 9, 2020 12:00 AM - Mar 9, 2021 12:00 AM
Project ID :	
Study ID :	
Product Name :	CASIRIVIMAB AND IMDEVIMAB, Placebo (REGN10933-10987)
Reporting Destination :	
<i>Includes cases with observe study types : Interventional, Interventional IIS and Non Company Sponsored Studies</i>	
<i>Excludes invalid and deleted cases and cases with follow-up version justification = Non-Medically Significant Follow-up</i>

Glossary/Logic

- a) *The search is based on most current data in Argus on the date of the report is generated.*
- b) *Based on the search criteria, the report includes cases where at least one event met the SUSAR criteria (Event is serious , unexpected and related to the suspect drug by either investigator or company)*
- c) *For identified SUSAR cases, all reported events are presented. Including events that do not meet SUSAR criteria*
- d) *Each row represents a unique combination of suspect products and events.*
- e) *Use the column 'SUSAR' to filter events that are considered SUSARs.*
- f) *Report excludes invalid cases.*
